

MONTABERT®

HYDRAULIC ROCK BREAKERS

COMPACT
RANGE

www.SoundHM.com

KING SIZE

HARD AS A ROCK

Up to the task in all circumstances

CHAMELEON

Blends into all jobsites, taking up any role

PRACTICAL GUY

Easy to operate, fast to maintain

MODEL CITIZEN

Silent and ecological: the very essence of the urban tool

UNSPOILT ENVIRONMENT

Do you want to make our planet green again? Silver Clip range is fully compatible with biological lubricants. Moreover, these breakers will actually enhance your working environment, thanks to its shock-protected and soundproofed housing. Noise being a form of pollution, it's also important to minimise it.

AUTONOMOUS BREAKER

- Silver Clip smart hydraulic distribution adjusts and keeps the working pressure at a constant level. This results in always getting the maximum energy per blow.
- Montabert compact breakers are all protected against black firing.

SMALL BUT TOUGH

- Competitive and efficient, Silver Clip range will help you achieving your goals, saving time and money. Its wide range of available working tools makes these breakers suitable for all types of applications.
- Silver Clip core is a single circular power cell, which doesn't need heavy and expensive tie rods. Less steel also means a better weight/power ratio, and allows to mount more powerful breakers on smaller carriers.

EASY CARE

- Light and ergonomic, Silver Clip breakers are easy to work with. Key components can be checked and/or replaced on site with minimum downtime and tools.
- Dreaming about batteries that don't need recharges? Equipped with a hydraulic accumulator, Silver Clip keep constant performance over time as they don't need constant nitrogen refills.
- Working tools are held by one single retainer. Easier, lighter and cheaper than the usual pair of retaining pins.

DESIGNED & BUILT FOR A WIDE RANGE OF APPLICATIONS

LANDSCAPING

DEMOLITION

TRENCHING

CIVIL ENGINEERING

RECYCLING

GOT A JOB TO DO? WE HAVE THE RIGHT BREAKER FOR IT

AT EASE EVERYWHERE
Silver Clip can work outside and also inside. Mounted on electric carriers, they can sneak their way through the narrowest doorways or down the tightest trenches.

ON ALL CARRIERS
Montabert compact range wide adaptation possibilities allow you to choose up to 4 models for one carrier. Depending on the job site, you will be able to optimise power, agility or fuel consumption.

WHATEVER THE JOB
Special Silver Clip configurations are also available, to get the toughest jobs done: scaling in tunnels, pile driving... Montabert has a solution for every need.

HYDRAULIC ROCK BREAKERS
COMPACT RANGE / SILVER CLIP

MULTI-SKILLED AND COMPACT

Silver Clip range is compatible with all quick couplers, and don't need specific adaptations. Innovative high performance technologies built in these breakers make them a winning investment in terms of reliability and efficiency for customers around the world.

MONTABERT®

MONTABERT, ENGINEERING & INNOVATION SINCE 1921

The use of innovative high performance technology in product design and manufacturing makes Montabert products the most efficient and reliable choice for customers around the globe. Since 1921, Montabert products have been produced in France with a commitment to designing methods and solutions focused on productivity, reliability and safety. A continuous investment in research and development has resulted in the delivery of technology products that will revolutionize the market. For almost 100 years, Montabert products have led the industry with three to five patents a year. With a network of 150 dealers around the world, you will always find a Montabert certified partner close to you to provide the best service and solutions.
